

Monetta

Financial Services, Inc.

Dear Prospective Shareholder,

Thank you for your interest in the Monetta Funds. I realize that you have many fund choices to consider and selecting the right fund to achieve a long-term objective can be a daunting task.

Monetta has two investment choices: the Monetta Fund and the Monetta Core Growth Fund (formerly the Monetta Young Investor Fund.)

The Monetta Fund is an actively managed fund that focuses primarily on finding high quality, large capitalization growth stocks that we believe offer above average long-term growth potential.

The Core Growth Fund uses a core-plus investment approach. Half the Fund (core) is managed passively by investing in Exchange Traded Funds that seek to track the performance of the S&P 500 Index. The balance is primarily invested in high quality, large capitalization growth stocks that have demonstrated a high level of revenue and earnings stability. New custodial accounts receive an investment kit that includes educational materials, a quarterly newsletter and opportunities to participate in online games and activities with various prizes.

Monetta has partnered with SAGE Scholar's Inc., to offer shareholders' college tuition discount credits that can be used at over 375 colleges, nationwide. Shareholders can register for the Tuition Rewards Program by visiting www.monetta.com (See enclosed pamphlet.)

Accounts can be opened with a minimum \$100 investment with the establishment of an automatic investment plan of at least \$25 a month.

Please review the enclosed information and don't hesitate to call us at 1-866-964-4683 or email us at info@monetta.com with any questions.

Sincerely,

Robert S. Bacarella
President & Founder

Mutual fund investing involves risk. Principal loss is possible. The Funds may make short-term investments, without limitation, for defensive purposes, which investments may provide lower returns than other types of investments. The portion of the Monetta Core Growth Fund that invests in underlying ETF's that track the Index will be subject to certain risks which are unique to tracking the Index. By investing in ETF's, you will indirectly bear your share of any fees and expenses charged by the underlying funds, in addition to indirectly bearing the principal risks of the funds. The Monetta Core Growth Fund will invest approximately 50% of its net assets in funds that track the S&P 500 Index and your cost of investing will generally be higher than the cost of investing directly in the shares of the mutual funds that track an index, which will be subject to certain risks which are unique to tracking the Index. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Please refer to the prospectus for further details.

The fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The summary and statutory prospectuses contains this and other important information about the investment company, and may be obtained by calling 1-866-964-4683, or visiting www.younginvestorfund.com. Read it carefully before investing.

The S&P 500 Index is a broad based unmanaged index of 500 stocks, which is widely recognized as representative of the equity market in general. One cannot invest directly in an index.

An AIP does not assure a profit or protect against loss in declining markets. It is a plan that lets you invest a low minimum amount on a regular basis regardless of short-term market volatility.

Tuition Rewards are remitted solely as a reduction from the college's full tuition bill and are not awarded in cash. Certain restrictions may apply. The Tuition Rewards program is offered and administered by SAGE Scholars, Inc., a private for-profit corporation. Monetta Financial Services, Inc., (MFSI) through a partnership with SAGE Scholars offers a college tuition reduction program that may be used at over 375 participating colleges nationwide. All costs for the College Savings Program, including participation in the Tuition Rewards Program, are paid by MFSI. For program details and restrictions please visit www.tuitionrewards.com.

Tuition Reward registration bonus points are issued one time only. If the investor and/or student already has a Tuition Rewards account through Monetta or another SAGE financial partner, he or she is not eligible for additional registration points.

For custodial accounts, MFSI has a "college savings program" where the Monetta Shareholders automatically receive an investment kit, a quarterly newsletter, various educational materials and in addition, if enrolled, will receive Tuition Rewards.

All cost for the College Savings Program including participation in the Tuition Rewards Program are paid by MFSI.

Monetta Financial Services, Inc. is the adviser to the Monetta Funds. The Monetta Funds are distributed by Quasar Distributors, LLC.

Alpha compares risk-adjusted performance relative to an index. Positive alpha means outperformance on a risk-adjusted basis. **Beta** measures the volatility of a security or portfolio relative to an index. Less than one means lower volatility than the index; more than one means greater volatility. **R-squared (R²)** measures the relationship between portfolio and index performance on a scale of 0.00 (0%) to 1.00 (100%). A higher R² indicates more of the portfolio's performance is affected by market movements and vice versa. **Price-to-Earnings (P/E)** is calculated by dividing the current price of a stock by the company's trailing 12 months' earnings per share.

While the fund is no-load, management and other expenses still apply. Please refer to the prospectus for further details.

Our Philosophy

Our investment philosophy is based on the belief that long-term outperformance can be achieved by investing in large-cap growth companies that can exceed growth expectations over the next three to five years. We apply the investment philosophy of well-known investors:

Warren Buffett: *"Best returns are achieved by companies that have been producing the same product or service for several years."* The Monetta Young Investor Fund emphasizes high-quality growth companies with a competitive edge.

Hagstrom, Robert G. *The Warren Buffet Way: Third Edition.* John Wiley, 2014, p. 78.

Peter Lynch: *"Never invest in any idea you can't illustrate with a crayon...invest in companies you understand."* Our Fund tends to have a bias to invest in quality, household names with proven/experienced management teams and strong growth prospects.

Lynch, Peter, and John Rothchild. *Beating the Street: a Special Edition for Worth Subscribers.* Simon & Schuster, 1994, p. 27, 303

James O'Shaughnessy: *"Market-leading firms are considerably less volatile than the market as a whole...Relative strength is a much better indicator of a company prospects than factors such as earnings growth rates."* The Monetta Young Investor Fund seeks companies with improving relative strength relative to its sector and overall market.

O'Shaughnessy, James P. *What Works on Wall Street: the Classic Guide to the Best- Performing Investment Strategies of All Time.* McGraw Hill, 2012, p. 192, 238.

3 COST BASIS METHOD

The Cost Basis Method you elect applies to all covered shares acquired from January 1, 2012 forward and to all identically registered existing and future accounts you may establish, unless otherwise noted. The Cost Basis Method you select will determine the order in which shares are redeemed and how your cost basis information is calculated and subsequently reported to you and to the Internal Revenue Service (IRS). **Please consult your tax advisor to determine which Cost Basis Method best suits your specific situation.** If you do not elect a Cost Basis Method, your account will default to **average cost** basis.

Primary Method (Select only one)

- Average Cost** – averages the purchase price of acquired shares
- First In, First Out** – oldest shares are redeemed first
- Last In, First Out** – newest shares are redeemed first
- Low Cost** – least expensive shares are redeemed first
- High Cost** – most expensive shares are redeemed first
- Loss/Gain Utilization** – depletes shares with losses prior to shares with gains and short-term shares prior to long-term shares
- Specific Lot Identification** – you must specify the share lots to be sold at the time of a redemption (This method requires you elect a Secondary Method below, which will be used for systematic redemptions and in the event the lots you designate for a redemption are unavailable.)

Secondary Method– applies only if Specific Lot Identification was elected as the Primary Method (Select only one)

- First In, First Out
- Last In, First Out
- Low Cost
- High Cost
- Loss/Gain Utilization

Note: If a Secondary Method is not elected, First In, First Out will be used.

Summary Prospectus

Monetta Fund

(Ticker: MONTX)

April 30, 2018

Before you invest, you may want to review the Monetta Fund's statutory prospectus and statement of additional information, which contain more information about the fund and its risks. You can find the Monetta Fund's statutory prospectus and other information about the fund online at <https://investors.monetta.com/monetta-fund.html>. You can also get this information at no cost by calling 1-800-MONETTA or by sending an e-mail request to info@monetta.com.

Investment Objective

The Monetta Fund seeks long-term capital growth.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Monetta Fund.

Shareholder Fees (<i>fees paid directly from your investment</i>)	None
Annual Fund Operating Expenses (<i>expenses that you pay each year as a percentage of the value of your investment</i>)	
Management Fees	0.95%
Distribution (12b-1) Fees	None
Other Expenses	0.45%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%
Total Annual Fund Operating Expenses⁽¹⁾	1.41%

⁽¹⁾ Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. Total Annual Fund Operating Expenses do not reflect Fund expenses paid indirectly and do not correlate to the expense ratios in the Fund's Financial Highlights because the Financial Highlights include only the direct operating expenses incurred by the Fund and exclude Acquired Fund Fees and Expenses.

Example

This Example is intended to help you compare the cost of investing in the Monetta Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Monetta Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Monetta Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$144	\$446	\$771	\$1,691

Portfolio Turnover

The Monetta Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Monetta Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Monetta Fund's performance. During the most recent fiscal year, the portfolio turnover rate of the Monetta Fund was 122.9% of the average value of its portfolio.

Principal Investment Strategies

The Monetta Fund invests (at the time of investment) at least 65% of its net assets, under normal market conditions, in common stocks of companies of all market capitalization ranges, although Monetta Financial Services, Inc. (the "Adviser") expects that the Fund will primarily invest in common stocks of large-cap companies (those with market capitalizations of at least \$10 billion measured at the time of investment). The Fund may invest in more volatile sectors, which could result in a disproportionate return or loss compared to the S&P 500® Index, the Fund's benchmark. As measured at the time of investment, the Fund may invest up to 5% of its net assets in exchange-traded funds ("ETFs") and up to 10% of its net assets in foreign stocks, which is accomplished primarily through American Depositary Receipts ("ADRs").

The Adviser employs a bottom-up, multi-faceted investment approach, which combines fundamental, technical, and macro-economic factors in its stock selection process. A stock's relative volatility, versus that of its industry sector and the overall market, aids the Adviser in determining individual stocks' buy and sell points.

The Adviser's investment decisions for the Monetta Fund's growth style of investing are based on the Adviser's review of a company's financial statements and other factors, including competitive landscape and recent product announcements. The Adviser also reviews quarterly earnings reports with an emphasis on management guidance. The Adviser generally seeks to invest in companies with positive long-term earnings growth expectations and that the Adviser believes have favorable short-term technical and/or market factors, including price and volume trends, relative strength, and institutional interest. The Adviser seeks to invest in quality companies that have demonstrated a proven track record of earnings growth. The Adviser also emphasizes price direction, volume, and relative strength, which it believes to be harbingers of pending fundamental changes that could lead to more/less institutional ownership.

Depending on market conditions and the foregoing considerations, the Adviser may at times be very active in turning over the Fund's portfolio. The Adviser's investment decisions for the Fund's growth style of investing are based on the Adviser's determination that a company's revenue and earnings growth have the potential to exceed market expectations and that the security is at an attractive entry point.

Principal Risks

Although every effort is made to achieve the Monetta Fund's objective of long-term capital growth, the Adviser cannot guarantee that the objective will be attained. You could lose all or a portion of your investment in the Fund as a result of a steep, sudden and/or prolonged market decline. The principal risks include:

- The Adviser's investment strategy does not achieve the Monetta Fund's objective;
- The stock market declines or stocks in the Monetta Fund's portfolio may not increase at the rate anticipated;
- Growth-oriented funds may under-perform when growth stocks are out of favor;
- The Fund may experience periods of high portfolio turnover;

Tax Information

The Monetta Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-exempt, tax-advantaged, or tax-deferred arrangement, such as a 401(k) plan, 529 plan, or IRA. Distributions on investments made through such accounts may be taxed later upon withdrawal of monies from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a financial adviser or bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
