

Monetta

Financial Services, Inc.

Dear Prospective Shareholder,

Thank you for your interest in the Monetta Funds. I realize that you have many fund choices to consider and selecting the right fund to achieve a long-term objective can be a daunting task.

Monetta has two investment choices: the Monetta Fund and the Monetta Core Growth Fund (formerly the Monetta Young Investor Fund.)

The Monetta Fund is an actively managed fund that focuses primarily on finding high quality, large capitalization growth stocks that we believe offer above average long-term growth potential.

The Core Growth Fund uses a core-plus investment approach. Half the Fund (core) is managed passively by investing in Exchange Traded Funds that seek to track the performance of the S&P 500 Index. The balance is primarily invested in high quality, large capitalization growth stocks that have demonstrated a high level of revenue and earnings stability. New custodial accounts receive an investment kit that includes educational materials, a quarterly newsletter and opportunities to participate in online games and activities with various prizes.

Monetta has partnered with SAGE Scholar's Inc., to offer shareholders' college tuition discount credits that can be used at over 375 colleges, nationwide. Shareholders can register for the Tuition Rewards Program by visiting www.monetta.com (See enclosed pamphlet.)

Accounts can be opened with a minimum \$100 investment with the establishment of an automatic investment plan of at least \$25 a month.

Please review the enclosed information and don't hesitate to call us at 1-866-964-4683 or email us at info@monetta.com with any questions.

Sincerely,

Robert S. Bacarella
President & Founder

Mutual fund investing involves risk. Principal loss is possible. The Funds may make short-term investments, without limitation, for defensive purposes, which investments may provide lower returns than other types of investments. The portion of the Monetta Core Growth Fund that invests in underlying ETF's that track the Index will be subject to certain risks which are unique to tracking the Index. By investing in ETF's, you will indirectly bear your share of any fees and expenses charged by the underlying funds, in addition to indirectly bearing the principal risks of the funds. The Monetta Core Growth Fund will invest approximately 50% of its net assets in funds that track the S&P 500 Index and your cost of investing will generally be higher than the cost of investing directly in the shares of the mutual funds that track an index, which will be subject to certain risks which are unique to tracking the Index. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Please refer to the prospectus for further details.

The fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The summary and statutory prospectuses contains this and other important information about the investment company, and may be obtained by calling 1-866-964-4683, or visiting www.younginvestorfund.com. Read it carefully before investing.

The S&P 500 Index is a broad based unmanaged index of 500 stocks, which is widely recognized as representative of the equity market in general. One cannot invest directly in an index.

An AIP does not assure a profit or protect against loss in declining markets. It is a plan that lets you invest a low minimum amount on a regular basis regardless of short-term market volatility.

Tuition Rewards are remitted solely as a reduction from the college's full tuition bill and are not awarded in cash. Certain restrictions may apply. The Tuition Rewards program is offered and administered by SAGE Scholars, Inc., a private for-profit corporation. Monetta Financial Services, Inc., (MFSI) through a partnership with SAGE Scholars offers a college tuition reduction program that may be used at over 375 participating colleges nationwide. All costs for the College Savings Program, including participation in the Tuition Rewards Program, are paid by MFSI. For program details and restrictions please visit www.tuitionrewards.com.

Tuition Reward registration bonus points are issued one time only. If the investor and/or student already has a Tuition Rewards account through Monetta or another SAGE financial partner, he or she is not eligible for additional registration points.

For custodial accounts, MFSI has a "college savings program" where the Monetta Shareholders automatically receive an investment kit, a quarterly newsletter, various educational materials and in addition, if enrolled, will receive Tuition Rewards.

All cost for the College Savings Program including participation in the Tuition Rewards Program are paid by MFSI.

Monetta Financial Services, Inc. is the adviser to the Monetta Funds. The Monetta Funds are distributed by Quasar Distributors, LLC.

Alpha compares risk-adjusted performance relative to an index. Positive alpha means outperformance on a risk-adjusted basis. **Beta** measures the volatility of a security or portfolio relative to an index. Less than one means lower volatility than the index; more than one means greater volatility. **R-squared (R²)** measures the relationship between portfolio and index performance on a scale of 0.00 (0%) to 1.00 (100%). A higher R² indicates more of the portfolio's performance is affected by market movements and vice versa. **Price-to-Earnings (P/E)** is calculated by dividing the current price of a stock by the company's trailing 12 months' earnings per share.

While the fund is no-load, management and other expenses still apply. Please refer to the prospectus for further details.

Our Philosophy

The Monetta Core Growth Fund's "half active/half passive" investment approach is the result of our many years of observing what investment strategies potentially work and what doesn't over time. Our philosophy incorporates insights from the following well-known investors:

John Bogle: "On average, an astonishing 90% of actively managed funds underperform their benchmark indexes over the preceding 15 years (2001-2016)." Approximately 50% of the Fund's portfolio will track the performance of the S&P 500 Index.

Bogle, John C. The Little Book of Common Sense Investing: the Only Way to Guarantee Your Fair Share of Stock... Market Returns. John Wiley, 2017, p. 33.

Warren Buffett: "Best returns are achieved by companies that have been producing the same product or service for several years." The Monetta Core Growth Fund emphasizes high-quality growth companies with a competitive edge.

Hagstrom, Robert G. The Warren Buffet Way. Third Edition. John Wiley, 2014, p. 78.

Gerald M. Loeb: "It is more likely to pay off to buy companies at a seemingly high price...than to attempt to discover when a declining situation will turn around." The Fund's basic investment strategy is to buy high and sell higher.

Loeb, Gerald M. The Battle for Investment Survival. John Wiley, 2007, p. 227.

Peter Lynch: "Never invest in any idea you can't illustrate with a crayon...invest in companies you understand." Our Fund tends to have a bias to invest in quality, household names with proven/experienced management teams and strong growth prospects.

Lynch, Peter, and John Rothchild. Beating the Street: a Special Edition for Worth Subscribers. Simon & Schuster, 1994, p. 27, 303.

James O'Shaughnessy: "Market-leading firms are considerably less volatile than the market as a whole...Relative strength is a much better indicator of a company prospects than factors such as earnings growth rates." The Monetta Core Growth Fund seeks companies with improving relative strength relative to its sector and overall market.

O'Shaughnessy, James P. What Works on Wall Street: the Classic Guide to the Best-Performing Investment Strategies of All Time. McGraw Hill, 2012, p. 192, 238.

3 COST BASIS METHOD

The Cost Basis Method you elect applies to all covered shares acquired from January 1, 2012 forward and to all identically registered existing and future accounts you may establish, unless otherwise noted. The Cost Basis Method you select will determine the order in which shares are redeemed and how your cost basis information is calculated and subsequently reported to you and to the Internal Revenue Service (IRS). **Please consult your tax advisor to determine which Cost Basis Method best suits your specific situation.** If you do not elect a Cost Basis Method, your account will default to **average cost** basis.

Primary Method (Select only one)

- Average Cost** – averages the purchase price of acquired shares
- First In, First Out** – oldest shares are redeemed first
- Last In, First Out** – newest shares are redeemed first
- Low Cost** – least expensive shares are redeemed first
- High Cost** – most expensive shares are redeemed first
- Loss/Gain Utilization** – depletes shares with losses prior to shares with gains and short-term shares prior to long-term shares
- Specific Lot Identification** – you must specify the share lots to be sold at the time of a redemption (This method requires you elect a

Secondary Method below, which will be used for systematic redemptions and in the event the lots you designate for a redemption are unavailable.)

Secondary Method– applies only if Specific Lot Identification was elected as the Primary Method (Select only one)

- First In, First Out
- Last In, First Out
- Low Cost
- High Cost
- Loss/Gain Utilization

Note: If a Secondary Method is not elected, First In, First Out will be used.

Summary Prospectus

Monetta Core Growth Fund

(Ticker: MYIFX)

April 30, 2019

Before you invest, you may want to review the Monetta Core Growth Fund's ("Core Growth Fund" or the "Fund") statutory prospectus and statement of additional information, which contain more information about the fund and its risks. You can find the Fund's statutory prospectus, reports to shareholders, and other information about the fund online at <https://monetta.com/monetta-core-growth-fund/>. You can also get this information at no cost by calling 1-800-MONETTA or by sending an e-mail request to info@monetta.com.

Beginning on January 1, 2021, as permitted by regulations adopted by the SEC, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker dealer or bank. Instead, the reports will be made available on the Fund's website, www.monetta.com, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by calling 1-800-MONETTA or by sending an e-mail request to info@monetta.com.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. If you invest directly with the Fund, you can call 1-800-MONETTA or send an e-mail request to info@monetta.com to let the Fund know you wish to continue receiving paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held in your account if you invest through your financial intermediary.

Investment Objective

The Core Growth Fund seeks long-term capital growth.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Core Growth Fund.

Shareholder Fees (<i>fees paid directly from your investment</i>).....	None
Annual Fund Operating Expenses (<i>expenses that you pay each year as a percentage of the value of your investment</i>)	
Management Fees	0.55%
Distribution (12b-1) Fees	0.25%
Other Expenses	0.37%
Acquired Fund Fees and Expenses ⁽¹⁾	0.03%
Total Annual Fund Operating Expenses⁽¹⁾	<u>1.20%</u>

⁽¹⁾ Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. Total Annual Fund Operating Expenses do not reflect Fund expenses paid indirectly and do not correlate to the expense ratios in the Fund's Financial Highlights because the Financial Highlights include only the direct operating expenses incurred by the Fund and exclude Acquired Fund Fees and Expenses.

Example

This Example is intended to help you compare the cost of investing in the Core Growth Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Core Growth Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Core Growth Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
	\$122	\$381	\$660	\$1,455

Portfolio Turnover

The Core Growth Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Core Growth Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Core Growth Fund's performance. During the most recent fiscal year, the Core Growth Fund's portfolio turnover rate was 28.1% of the average value of its portfolio.

Principal Investment Strategies

The Core Growth Fund employs a “core-plus” investment approach, which includes an active and passive component. For the Fund’s “passive” component of its strategy, the Fund invests approximately 50% of its assets in exchange-traded funds (“ETFs”) that seek to track the S&P 500® Index (the “Index”) or other broad-based market indices that primarily include stocks of large capitalization U.S. companies. For the Fund’s “active” component, the balance of the Fund is directly invested in common stocks of companies of all market capitalization ranges and is diversified among industries and market sectors. However, the Adviser will primarily seek to invest in common stocks of large-cap companies (those with market capitalizations of at least \$10 billion) that the Adviser considers to be high quality, well-known companies that produce products or provide services that are recognized by many investors.

In selecting individual stock investments, emphasis is placed on those companies that the Adviser believes to have above average long-term growth potential, a history of growth, a competitive advantage, and an established and experienced management team. The Adviser also considers price direction, volume, and relative strength of the issuers of such investments, which the Adviser believes to be harbingers of pending fundamental changes that could lead to more/less institutional ownership. Depending on market conditions and such considerations, the Adviser may at times be very active in turning over the non-ETF portion of the Core Growth Fund’s portfolio. While the Adviser expects that the Fund’s assets will usually be invested approximately 50% in funds (passive component) and 50% in direct investments (active component), these percentages may vary significantly from time to time due to market conditions. The Fund intends to invest at least 30% of its assets in each component under normal market conditions. The Fund may invest up to 10% of its assets in foreign stocks, primarily through American Depositary Receipts (“ADRs”).

A bottom-up approach is used in selecting these investments by evaluating each company on the basis of its financial statements and operations. Factors such as a company’s industry leadership, competitive advantages, earnings growth, profit margins, sales trends, and dividends, as well as technical factors, are scrutinized as part of the Adviser’s analysis.

The combination of investing in a core index component and individual growth companies seeks to diversify the portfolio through the use of ETF investments while providing the Adviser with the opportunity to seek excess returns relative to the index in specific company investments.

The Fund may make short-term investments, without limitation, for defensive purposes, which may provide lower returns than other types of investments.

Principal Risks

Although every effort is made to achieve the Core Growth Fund’s objective of long-term capital growth, the Adviser cannot guarantee that the objective will be attained. You could lose all or a portion of your investment in the Fund as a result of a steep, sudden and/or prolonged market decline. The principal risks include:

- **ADR Risk.** ADRs may be subject to some of the same risks as direct investment in foreign companies, which includes international trade, currency, political, regulatory and diplomatic risks. In a sponsored ADR arrangement, the foreign issuer assumes the obligation to pay some or all of the depositary’s transaction fees. Under an unsponsored ADR arrangement, the foreign issuer assumes no obligations and the depositary’s transaction fees are paid directly by the ADR holders.
- **Equity Securities Risk.** Prices of equity securities may fluctuate rapidly and unpredictably in shorter time periods for a variety of reasons, including as a result of political or economic events having little or nothing to do with the performance of the issuers, and there is no guarantee of long-term growth. Equity securities of growth companies may be more volatile and could result in a disproportionate return or loss respective to their benchmarks. Equity securities of technology growth companies, in particular, may be more volatile than equity securities of other companies primarily due to market saturation, price competition and rapid product obsolescence.
- **Management Risk.** The Adviser’s investment strategy may not achieve the Active/Passive Equity Fund’s objective. The Adviser’s judgments about the attractiveness, value and potential appreciation of particular stocks or other securities in which the Fund invests may prove to be incorrect and there is no guarantee that the Adviser’s judgment will produce the desired results.
- **Market Risk.** The stock market or stocks and ETFs in the Fund’s portfolio may decline or not increase at the rate anticipated.
- **Growth Stock Risk.** Growth-oriented funds may under-perform when growth stocks are out of favor.
- **Foreign Investment Risk.** Foreign investing, involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility and less developed or less efficient trading markets.
- **ETF Risk.** ETFs are subject to substantially the same risks as those of their underlying securities or other investments held by the ETF, and investments in ETFs will result in the Fund’s shareholders indirectly bearing a proportionate share of the ETFs’ operating expenses, in addition to the direct expenses of the Fund. Because the value of ETF shares depends on the demand in the market, ETF shares may trade at a discount or premium to the ETF’s net asset value per share.
- **Short-Term Investment Risk.** The Fund may make short-term investments without limitation in periods when the Adviser determines that a temporary defensive position is warranted. When the Fund is so invested, it may not achieve its investment objective.
- **Large Cap Equity Risk.** The stocks of large capitalization companies involve risks due to larger, more established companies being unable to respond quickly to new competitive challenges, such as consumer preferences. Larger companies may also not be able to attain the high levels of growth rates or returns similar to those of smaller capitalization companies.
- **Small and MidCap Equity Risk.** The stocks of small and midcap capitalization companies involve substantial risk. These companies may have limited product lines, markets or financial resources, and they may be dependent on a limited management group. Stocks of these companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Performance

The following bar chart and table show the risks of investing in the Core Growth Fund. The bar chart shows the changes in the Core Growth Fund's performance from year to year. Also shown are the Core Growth Fund's highest and lowest quarterly returns. The table below shows the Core Growth Fund's average annual total returns for certain time periods compared to the returns of the S&P 500® Index, a broad-based securities index. The Core Growth Fund's past performance, before and after taxes, is not necessarily an indication of how the Core Growth Fund will perform in the future. Updated performance is available on the Fund's website at www.monetta.com or by calling 1-800-MONETTA.

CORE GROWTH FUND (MYIFX)

Calendar Year Total Returns (before taxes)

Highest Quarterly Return	Lowest Quarterly Return
22.97% (Quarter ended June 30, 2009)	-15.10% (Quarter ended December 31, 2018)

Average Annual Total Returns

(for the periods ended December 31, 2018)

	1 Year	5 Years	10 Years
Return Before Taxes	-5.30%	7.39%	15.13%
Return After Taxes on Distributions	-9.41%	5.46%	13.79%
Return After Taxes on Distributions and Sale of Fund Shares	0.22%	5.78%	12.67%
S&P 500® Index (reflects no deductions for fees, expenses or taxes)	-4.38%	8.49%	13.12%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation, and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-exempt, tax-advantaged, or tax-deferred arrangements, such as 401(k) plans, 529 plans, or individual retirement accounts ("IRAs"). Holdings in such accounts may be subject to taxes at a later date.

In certain cases, the figure representing "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax benefit to the investor.

Tax Information

The Core Growth Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-exempt, tax-advantaged, or tax-deferred arrangement, such as a 401(k) plan, 529 plan, or IRA. Distributions on investments made through such accounts may be taxed later upon withdrawal of monies from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a financial adviser or bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
